

Solutions Engineer

Siros support the channel by enabling partners to deliver unbiased Public Cloud Consultancy, Migration and Management services. We are passionate about disrupting the conventional.

We want to change the way people look at and use Public Cloud services. We believe any organisation from small start-ups to large multinationals can unleash the power of these services.

We support the channel partner to enable them to identify customers looking at Public Cloud solutions and work seamlessly with the Channel Partner Account and Technical Teams and follow a process to scope the opportunity.

We prepare proposals detailing pricing and key services available to be reviewed by the partner and presented to their customers. We provide follow up consultancy, migration and management services as and when they are required.

Role Key Objectives

- Provide on-going management and support of VMware infrastructure platform and network/security services
- Be involved in planning and implementing future upgrades to the service
- Act as a service architect when required by suggesting upgrades and documenting design ideas
- Provide customer demonstrations on a range of cloud based services
- Investigate and implement automation, time saving and efficiency tools and approaches where possible
- Assist within our public cloud practise when required (AWS, Azure, SAAS tools)

Experience

- 2-3+ years experience in a technical operations role (hands on)
- Experience of the IT services & cloud market

Skills

The below is an ideal list, we don't expect all skills but at least a working knowledge of principles:

- Network (not complex, switching, firewall, basic routing knowledge)
- Switches – Force10 (now Dell), Cisco
- Firewall – Cisco ASA
- VMware (vCenter, ESX, vCloud Director)
- Storage knowledge (general), Fiber Channel desirable
- Windows admin experience
- Linux admin desirable
- Ability to interpret monitoring tools and troubleshoot in a methodological way

Package and Perks

- Comprehensive training including Public Cloud, Software Solutions & SAAS offerings
- Competitive package - £30k - £40k dependent on experience
- Apple MacBook
- Pension
- 25 days holiday plus an extra day off on your birthday
- Great benefits like free breakfast, snacks and drinks, fitness classes, Xbox breaks, regular team outings and team incentives.
